

Oden

- stripping tool for cables Ø 2.5 - 11 mm*

ODEN

ODEN is a precision stripping tool for removing the sheath from signal, telephone, audiovisual, instrumentation and data transmission copper and fiber optic cables. The tool features a 10 position indexed blade height adjustment wheel ensuring accurate and repeatable stripping results. A further "x" position on the wheel allows the tool to be closed together to eject a worn blade cassette for quick and safe replacement. The unique design requires simply gripping the tool together to allow easy cable entry. Tested to over 50,000 cycles.

Particulars:

- Precise setting for the different insulations is easily made by means of the nine position setting wheel
- Stripping: cables Ø 2.5 to 11 mm with up to 1.0 mm thick insulations
- Strips the outer insulation on most multi conductor and optical cables up to Ø 11 mm
- **Weight:** 28 g
- **Dimensions:** 91x40x19 mm

Spare Parts:

- Oden knife

*NOTE! The cutting capacity of any cutting tool may vary due to conductor design, insulation thickness, hardness of materials
