

PKL54C

- easy and safe operated electric cable cutter

PKL54C is a high-quality and ergonomic electric cable cutter. The tool is designed to cut conductors easily and safely at the touch of a button. PKL54C has a Li-Ion battery with a long run time and short charging time, which makes working more efficient. The precision-ground blade on the cable cutter ensures a longer useful life and an optimum cut.

PARTICULARS:

- Electric cable cutter for copper and aluminium cable
- Not intended for cutting steel
- Max cutting diameter 54 mm.
- The tool has a scissor action when cutting, which produces an optimum cut
- Integrated fuse as overvoltage protection
- CE-marked
- Delivered with case, battery, 18 V Li-Ion and charger

TECHNICAL DATA PKL54C:

Battery voltage	18 V
Battery capacity	5 Ah, Li-Ion
Charging time	approx. 45 min
Weight including battery	3.6 kg
Dimensions	338 x 120 x 220 mm
